

LOKESH KHADSE

Pune, India

+91 9665952003 [◇ lokeshkhadse19@gmail.com](mailto:lokeshkhadse19@gmail.com) [◇ LinkedIn](#) [◇ GitHub](#)

OBJECTIVE

Full Stack Java Developer with expertise in Java, Spring Boot, Microservices, Hibernate, and Docker. Skilled in frontend development using React and managing MySQL & Oracle SQL databases. Passionate about building scalable, secure applications and optimizing system architecture with modern technologies.

EDUCATION

Bachelor of Engineering in Computer Engineering, Sinhgad Institute of Technology, Lonavala 2020 – 2024
CGPA: 9.20/10

Higher Secondary Certificate (HSC), Purandar Junior College, Saswad 2020
Percentage: 65.69%

Secondary School Certificate (SSC), MES Waghire Highschool, Saswad 2018
Percentage: 89.20%

SKILLS

Language	Java
Back-End	Microservices, Spring Boot, Spring Security, Hibernate, Spring Data JPA, Collection Framework
Front-End	HTML, CSS, JavaScript, React, Tailwind CSS
DBMS Package	MySQL, Oracle SQL
DevOps Tools	Docker, kubernetes , Git, GitHub , Jenkins
Operating System	Windows, Linux

EXPERIENCE

Java Full Stack Developer July 2024 – Present
Eidiko Systems Integrators *Hyderabad, India*

- Designed scalable REST APIs using Java, Spring Boot, Hibernate, and Microservices, improving performance and maintainability while optimizing MySQL and Oracle SQL queries, reducing response time by 30%.
- Developed responsive front-end components with React, JavaScript, HTML, and CSS, enhancing UX and reducing page load time by 20% for better application performance.
- Integrated Docker & Jenkins for CI/CD, streamlining DevOps and cutting deployment time 50%.

Full Stack Developer Intern Dec 2022 – Feb 2023
Alhansat Solutions (IEEE Bombay Section) *Mumbai, India*

- Worked on UI/UX design and front-end development using Figma, CSS, HTML5, and Bootstrap.
- Built responsive layouts and enhanced user experience for web applications.

PROJECTS

Case Management System – Fundamental Credit Reviewer *Spring Boot, Microservices, React, JWT*

- Developed a secure banking case management system using Spring Boot, Microservices, and React, with role-based dashboards and real-time updates.
- Integrated RabbitMQ for asynchronous notifications and Spring Scheduler for automation, optimizing database queries with JDBC Template, improving performance by 30%
- Enhanced security with JWT-based authentication and streamlined workflows, reducing case resolution time by 40%.
- Implemented automated email notifications for real-time case status updates using Scheduler, improving customer engagement by 25%.
- Introduced role-based access control (RBAC) for different user levels, improving system security and ensuring only authorized access to sensitive information.

Food Catering Application

Microservices,JWT, RabbitMQ, React, Redux, MySQL

- Developed a scalable food catering web application with Microservices and React, improving real-time updates by 30%.
- Integrated RabbitMQ and WebClient for efficient asynchronous notifications and API handling, reducing response time by 25%.
- Implemented JWT-based authentication, enhancing security and improving login efficiency by 20%.
- Optimized order processing with SQL queries, increasing performance by 35%.
- Added a "Forgot Password" feature with OTP verification for secure password recovery.

Voice Enabled Command Line Interface using Symbl.ai (NLP Tool)

HTML, CSS, React.js, symbl.ai

- Experienced developer in designing and maintaining voice-enabled command line interfaces using Symbl.ai, enhancing user experience.
- Proficient in developing innovative solutions, diagnosing issues, and ensuring seamless system functionality.
- Skilled in optimizing operations, improving scalability, and providing efficient system support.

HOBBIES

- **Sports:** Playing cricket, football
- **Traveling:** Bike riding, trekking
- **Music:** Listening to various kinds of music
